

MYE AppAudio® Solo

MYE AppAudio® Solo Club TV Audio on Smartphones

MYE AppAudio Solo is the latest innovation in plug-n-play audio over Wi-Fi technology. A single input unit, AppAudio Solo features include built-in Wi-Fi, analog and optical connectors with the bonus of being powered by a standard wall plug or USB and a super easy install. Plus, boost sales and referrals with the exclusive AppAudio mobile marketing platform.

- Easy plug-and-play installation.
- Free AppAudio downloads from iTunes or Google Play.
- Easily connect to existing Wi-Fi.
- Extensive advertising features at no additional cost.
- No monthly fees.
- Analytics Reporting – Total users, number of times used, channels listened and more.
- Includes all necessary connection cables.
- 4-year warranty.

MYE AppAudio is protected by US Patent 8,495,236. Additional US patents pending.

MYE AppAudio® Solo

MYE Group X Smartphone Audio System

Enjoy Group X or Virtual Classes on Smartphones

An ideal solution for facilities without enclosed classrooms or space where loudspeakers are impractical. Members download the free MYE AppAudio listening app to hear class audio and instruction on their Apple or Android smartphones. Compact and portable, the MYE Group X Smartphone System connects easily to audio mixers and class players.

- FREE AppAudio downloads from iTunes or Google Play store.
- Easy connection to group X audio mixers or virtual class players.
- FREE MYE Mobile Marketing Platform with secure online portal.
